Community Solidarity Saturday
A Community & Trade Union Discovery Event
Union Stalls - Talk to a union that could represent you
Discover how you can be more involved

Trade unions have always been active in supporting their community. Today, that activity is needed more than ever as one after another of our community assets and local organisations are attacked or destroyed altogether.

Meanwhile, governments of all shades promise to 'sort out' the decay and then fail to act or consciously make the situation worse. This has to be stopped.

The current government has presided over thirteen years of decay and destruction. Austerity was never about short-term pain for long-term gain. The pain for us is permanent.

Our community workshops will include talks and ideas on how we can work with you and support you to take back control and protect what we all hold dear.
